About Me

A self-motivated React.js developer with expertise in scalable UIs, component-based architecture, modular approach, state management, API integration (Axios), responsive design, exception handling, Git, GitHub. Passionate about continuous learning and building user-friendly application.

Skills

- HTML, CSS, JavaScript and ReactJS.
- Hooks, React-router, contextApi, Redux, ReduxToolkit, Api fetching (Axios).
- User-Friendly Design, Styled Component, CSS Modules, Bootstrap, SASS and GSAP basics.

Education

- Advance Diploma in Computer Applications 1 Year
Indira Gandhi Computer saksharta Mission (IGCSM)
- Bachelor of Computer Application 2021-2024
(Punjabi University Patiala)

Internship (8 months)

- React JS
Sunfocus Solution pvt. ltd.
 - Develop real-world projects using component-based architecture and modular approaches.
 - Optimize state management with Redux Toolkit in larger applications .
 - Strengthen API handling by efficiently using Axios.
 - Master navigation with React Router for seamless user experiences .
 - Ensure clean, scalable code for maintainability and performance.

Projects

- Note Making App---
 - A React.js-based CRUD application with modals, Redux Toolkit, React Router DOM, and a search bar for efficient note management. Implemented Redux Persist for local storage, ensuring data persistence across sessions. Designed for seamless state management and dynamic UI updates to enhance user experience.
 - **Tech Stack:** React.js, React Router, Redux Toolkit, Redux Persist, Modals, React Icons.
- MyPortfolio---
 - Built with React.js, GSAP, Styled-components. A dynamic and responsive single-page portfolio designed to showcase frontend expertise and motion design finesse.
 - **Tech Stack:** React.js, Bootstrap, SASS, GSAP, Modals, React Icons.
